

TRASYS

SYMBIOSIS WITH AN EVER CHANGING ENVIRONMENT

The IT integrator company for REACH

FOR THE INDUSTRY & NATIONAL CHEMICAL ASSOCIATIONS & EUROPEAN CHEMICAL AGENCY

Implement your REACH Strategy in 3 Steps

Step 1: Review your REACH-IT strategy

- ▶ Review your Enterprise REACH strategy.
- ▶ Review the REACH impact on your IT applications.
- ▶ Refine your REACH-IT strategy in line with your company's strategy.
- ▶ Prepare your REACH-IT team.

TRASYS OFFERS

- ▶ Awareness sessions (TRASYS REACH Orientation Seminar).
- ▶ Trainings (TRASYS hand-on IUCLID 5 Trainings).
- ▶ Workshops (TRASYS REACH Information Management Workshops).

Our team of REACH consultants with practical experience in large system integration projects for REACH will lead interviews with your Business Unit Managers, Legal, IT or REACH Teams and perform analysis.

DELIVERABLES

- ▶ **Overview of main impact of REACH on your systems.**
- ▶ **Overview of specific necessary systems to deploy for REACH.**
- ▶ **High level recommendations for your systems preparation for REACH.**

DURATION

From 1 to 5 days depending on the roles & size of your company, legal, regulatory, IT and business impact of REACH on your industry.

Step 2: Define your REACH systems migration plan

- ▶ Assess your As-Is situation at IT level and your REACH systems readiness.
- ▶ Define your target REACH related systems architecture (production and REACH-specific).
- ▶ Develop high level scenarios and select the best option in terms of packages and development based on a scope/cost/benefit/risk analysis and taking into account your key technologies.
- ▶ Draft and detail a migration program for your systems in alignment with the legal and operational timeline.

TRASYS OFFERS

- ▶ Architecture Assessment of your IT applications, with respect to your REACH systems strategy, current and future operational priorities, technology requirements and industry standards.
- ▶ A target REACH systems architecture development enabling REACH compliance to legal and operational stakeholders.
- ▶ IT software modules Evaluation and Selection of vendors that best meet your needs, based on our insight of the available solutions.

DELIVERABLES

A pragmatic migration program with its projects tracks establishing your current systems to migrate and adapt to REACH value-chain-wide impacts.

DURATION

From 1 to 4 weeks depending on the roles & size of your company, legal, regulatory, IT and business impact of REACH on your industry.

Adapt your operations backbone for REACH

WE DO IT FOR THE EUROPEAN INSTITUTIONS
WE DO IT FOR THE INDUSTRY
WE CAN DO IT FOR YOU

Step 3: Implement your plans and deploy solutions

- ▶ Support to select the market system solutions for REACH: SAP, non-SAP solutions, combinations of market solutions,...
- ▶ Assistance to implement and deploy available systems provided by the European Commission and the European Chemical Agency (Pre-registration, ES/CSA/CSR, REACH-IT, IUCLID5).
- ▶ Guidance to participate and to integrate the systems and initiatives from the Industry Organisations (SIEF, Industry Portal,...).
- ▶ Insight to decide on commercial REACH compliant tools and provision of specific training to use them.
- ▶ Analysis and recommendations for integrating those and up-coming tools with your existing systems and infrastructure.

TRASYS OFFERS

- ▶ Consulting assistance thanks to our specialised REACH systems and IUCLID5 experts.
- ▶ Tailor-made REACH processes implementation & systems integration services adapted to your needs.
- ▶ Systems development capabilities from our Development Centre dedicated to REACH-IT including technology experts, REACH trainers, REACH-IT test team.
- ▶ SAP integration projects led by our SAP Practice, with mastery of REACH-related or impacted modules: EH&S, SVT, Reach Compliance (soon), MM, PP, SD, FI/CO, CRM, BW.
- ▶ Integration projects of alternative ("non-SAP") solutions led by trained package-specific consultants, for instance HEMMIS/ExESS (recommended by CEFIC) experts.
- ▶ Access with service level agreement to TRASYS IUCLID5 support center providing: technical and functional on-line support via phone and remote conferencing tool (WebEx), IUCLID 5 rollout, on-site support.

DELIVERABLES

- ▶ **Consulting for strategy & architecture of your systems for REACH.**
- ▶ **Co-management of your REACH implementation program.**
- ▶ **Implementation and systems integration of various solutions to adapt your systems infrastructure.**
- ▶ **Customized training, guidance, support and maintenance of REACH-specific systems.**

DURATION

From 1 month to 1 year depending on the roles & size of your company, legal, regulatory, IT and business impact of REACH on your industry.

**SYMBIOSIS WITH
AN EVER CHANGING ENVIRONMENT**

Trasys for REACH

For almost 5 years, **TRASYS** has been working in the field of **REACH**.
Our international team includes over 40 consultants specialised in IT services and solutions for **REACH**.

We assist our clients to prepare their IT infrastructure and **REACH**-specific systems during the entire lifecycle: from specific analysis, design, installation, configuration, or training to full-fledged implementation and maintenance. Those systems encompass:

- ▶ European Commission & European Chemical Agency (REACH-IT, IUCLID 5, CSA/CSR, Global Portal of Directorate General ENVIRONMENT, Pre-registration,...)
- ▶ Chemical Associations (SIEF for the CEFIC)
- ▶ Industry (SAP and non-SAP solutions, SIMS, DU solutions,...)

Our specialist trainers lead **IUCLID 5**-specific sessions and **Reach Information Management** guidance workshops. Manufacturers, importers and downstream users get insight into the IT systems for **REACH**. These trainings are delivered in collaboration with the national chemical associations from across Europe: from Spain to Poland, from Finland to Greece.
